This guide is based upon the English translation for the Square-Enix game “Blood of Bahamut” for the Nintendo DS, released originally in 2009 with the English patch released in 2014.

Be aware that although materials, missions and anything clearly listed in the game is covered, hidden variables like exact statistics of the Behemoths (HP, S Rank Time/Damage) may vary from what is listed here.

# — — — Story Missions — — —

## General Notes

- In the story missions, when the goal is anything other than “Defeat the Behemoth!” the areas of the Behemoth you can damage will be limited. Even if there are materials you wish to get, aim only to clear the mission in these cases.
- Once you finish a chapter, other “Free Missions” related to the Behemoth of that chapter will become available in the mission selection screen.
- For details related to the destroyable areas of each Behemoth, please refer to the detailed sections within this guide.
- Experience values are based on time taken, damage received and multiplayer bonuses. A rank of “S” will earn the base experience value +20%, A=+15%, B=+10%, C=+0%, D=0.

## Chapter 1 – The One-Armed Giant

- Chapter 1 is more of a tutorial chapter, so the victory conditions and difficulty are relatively low. Be sure to read the instructions!

Mission	Victory Conditions	Difficulty	Time Limit	S Rank Time	S Rank Damage	Base EXP
1-1 The Destined Summoner	Jump on Gigant and destroy the core on the back of his hand!	1	15 min.	1:01	0	100
1-2 A Hero's Departure	Get to the portal!	1	15 min.	7:31	560	100
1-3 Behemoth's Supporters	Expose the core on Gigant's face!	1	15 min.	7:31	620	100
1-4 Revenge of the Maiden	Concentrate your attacks on Gigant's knees to bring him down!	1	15 min.	7:31	680	100
1-5 Gigant's Final Battle	Defeat Gigant!	2	15 min.	7:31	740	250

※ The “S Rank Time” is the cutoff time for completing the mission and receiving an S Rank.

※ “S Rank Damage” is the maximum amount of damage the player can receive and still receive an S Rank.

## Chapter 2 – An Eternal Wish: The Silver Wolf Fenrir

- The difficulty gets ramped up with this chapter. Also, this Behemoth is weak against ice, so use that to your advantage.
- Mission 2-3 is a bit hard to understand, but there are two structures pointing up from both of the rear legs. Destroy either of these structures to clear the mission. Destroying the core comes next mission.
- In mission 2-4, there will be a core underneath the structures on the rear legs that you destroyed in mission 2-3. Destroying these now-exposed cores will complete the mission.

Mission	Victory Conditions	Difficulty	Time Limit	S Rank Time	S Rank Damage	Base EXP
2-1 Millennial Oath	Survive Fenrir's attacks for 5 minutes!	2	5 min.	5:00	800	250
2-2 Chasing a Dream	Pursue Fenrir and get to the portal up ahead!	2	15 min.	7:31	860	250
2-3 The Silver Menace	Break through Fenrir's hind leg armor!	2	15 min.	7:31	920	250
2-4 Someone to Protect	Destroy one of Fenrir's hind leg cores!	2	15 min.	7:31	980	250
2-5 A Forgotten Dream	Defeat Fenrir!	3	15 min.	7:31	1040	500

## Chapter 3 – Funeral Pyre: The Scorching Ifrit

- This Behemoth is weak against lightning.

Mission	Victory Conditions	Difficulty	Time Limit	S Rank Time	S Rank Damage	Base EXP
3-1 A Burning Desire	Head toward Ifrit and get to the portal!	3	15 min.	7:31	1100	500
3-2 Ifrit's Assault	Survive Ifrit's attacks for 5 minutes!	3	5 min.	5:00	1160	500
3-3 Raging Flame Beast	Break through Ifrit's chest armor	3	15 min.	7:31	1220	500
3-4 Scorching Battlefield	Aim for the clasp on Ifrit's back!	3	15 min.	7:31	1280	500
3-5 Soul of a Lost Flame	Defeat Ifrit!	4	15 min.	7:31	1340	750

## Chapter 4 – The Wanderer: Gilgamesh

- Strong against Fire, Ice and Lightning, so it is best to use Dark or No elemental attributes.
- You can make Gilgamesh dock in mission 4-3 by attacking his back core from a high (elevated) platform. It is still possible to complete the mission if the back core is destroyed.

Mission	Victory Conditions	Difficulty	Time Limit	S Rank Time	S Rank Damage	Base EXP
4-1 Suspicious Assassin's Dagger	Destroy Gilgamesh's chest core!	4	15 min.	7:31	1400	750
4-2 Guard of Purgatory	Survive Gilgamesh's attacks for 5 minutes!	4	5 min.	5:00	1460	750
4-3 Operation Decoy	Attack Gilgamesh's back until he docks at the platform!	4	15 min.	7:31	1520	750
4-4 The Destined One	Destroy the core on Gilgamesh's float without defeating Aslan!	4	15 min.	7:31	1580	750
4-5 Lineage of the Dragon	Defeat Gilgamesh!	5	15 min.	7:31	1640	1000

## Chapter 5 – Unfelt Sentiments: Shiva the Frost-Hearted

- Weak against fire.

Mission	Target	Victory Conditions	Difficulty	Time Limit	S Rank Time	S Rank Damage	Base EXP	Clear Prize
5-1 The Ice Queen	Shiva	Destroy all of Shiva's armor!	5	15 min.	7:31	1760	1000	
5-2 Prisoner of Fate	Shiva	Destroy Shiva's fan!	5	15 min.	7:31	1760	1000	
5-3 Farewell to Love	Shiva	Expose the hidden core under Shiva's armor!	5	15 min.	7:31	1880	1000	
5-4 A Comrade's Oath	Shiva	Defeat Shiva!	5	15 min.	7:31	1880	1000	Shiva's Thigh
5-5 The Accursed Temple	Black Dragon	Defeat Aslan's black dragon!	6	15 min.	1:01	2240	1250	Ability Shade

## Chapter 6 – The Behemoth Melody

Mission	Target	Victory Condition	Difficulty	Time Limit	S Rank Time	S Rank Damage	Base EXP
6-1 Child of Time	Gigant	Defeat the ancient Gigant!	6	15 min.	7:31	9440	1250
6-2 Eternal Flame	Ifrit	Defeat the ancient Ifrit!	6	15 min.	7:31	9920	1250
6-3 Frozen for Eternity	Shiva	Defeat the ancient Shiva!	7	15 min.	7:31	10400	1250
6-4 Truth Behind Summons	Gilgamesh	Defeat the ancient Gilgamesh!	7	15 min.	7:31	11360	1500

## Final Chapter – Dragonblood Heirs

Since Bahamut and Neo-Bahamut resist all attributes, the attribute “None” is recommended.

Mission	Target	Victory Conditions	Difficulty	Time Limit	S Rank Time	S Rank Damage	Base EXP
7-1 Connected Bonds	Bahamut	Destroy Bahamut’s horn!	8	15 min.	7:31	2960	1500
7-2 Fate of the Dragonkind	Bahamut	Expose Bahamut’s core!	8	15 min.	7:31	2960	1500
7-3 Nirvana	Bahamut	Defeat Bahamut!	9	15 min.	7:31	3080	1500
7-4 A True Behemoth	Neo-Bahamut	Defeat Neo-Bahamut!	9	15 min.	7:31	3080	1500
7-5 Dragonblood Heirs	Neo-Bahamut	Defeat Neo-Bahamut!	10	15 min.	7:31	13760	1750

## ——— Post Game ———

After clearing the final mission stage (7-5), the next Free Mission that has not been cleared in order from the first one (top to bottom) will be displayed in the “Next Mission” area.

Ultimate Gigant appears after completing the main story. Defeating Ultimate Gigant will unlock the other Ultimate Behemoths in order (Fenrir to Bahamut) as well as Ultimate Gladion

Defeating the Ultimate Behemoths will also unlock other alternate forms of the Behemoths (excluding Chaos Bahamut)

When all story missions and all Free Missions up to Ultimate Durga are clear, Chaos Bahamut will be unlocked. Defeating Chaos Bahamut will result in the hidden (final) ending.

## ——— Characters and Abilities ———

### Ibuki

The third strike on every three hit combo does a sweeping slash that helps rid the screen of surrounding smaller enemies. However, for this to happen all 3 hits must be to the lesser enemies.

The long range charged attacks and Drain Edge are effective, but due to the lack of locked, piercing and splash damage attacks in the long range, Ibuki isn't all that effective for short battles or destruction of specific Behemoth parts.

### Abilities

Ability	Attribute	Description
Spinning Grace	-	Delivers a blow to all surrounding enemies.
Elixir of Life Shot	-	A powerful blow. Storing power will increase the attack power.
Provoking Flare	-	Attract the attention of the Behemoth.
Fighting Spirit	-	Brace to counter the enemy's attack.
Evil Crusher	-	Increases Dark resistance for all allies. Heals own HP.
Kazuno Sword	-	Concentrates your spirit to slash all surrounding enemies at once.
Mind Shot	-	Fires a mental blast. Storing power will increase the attack power.
Morale Boost	-	Raise the attack power of all allies.
Summon	-	Release the power of the dragon to attack all surrounding enemies.
Drain Edge	-	Deal damage and recover some of that damage as HP.

## Ren

Charges right up to the enemy with his superior dashing speed.

With his dark attribute abilities and piercing attacks, he can make short work of most Behemoths. However, his attacks are not effective against Behemoths resistant to dark. He is also recommended to swiftly avoid attacks.

His recommended skills are piercing (wide range), wide range (Fixed Attribute) and continuous locked-on attacks. Because his first attack lunges forward, he is effective at clearing out lesser enemies fast.

When attacking lesser enemies, not using wide range attacks is key.

### Basic Tactics

Since Ren doesn't have extreme long range attacks, he must close in on the enemy. However, he cannot equip "Defensive Armor" so you must be careful. If you are worried, equip a panacea.

When surrounded by lesser enemies, using a single wide range attack will be much faster than normal attacks.

His abilities are best suited for scattering smaller enemies and concentrated destruction in a single area with his piercing wide range attacks, dark sword attacks and wide range long distance attacks.

A multi-player party benefits from having Ren in the party.

### Abilities

Ability	Attribute	Description
Typhoon Slash	Ice	Store up power and slash all surrounding enemies at once.
Wicked Triple Blade	Dark	3 consecutive strikes (Dark attribute)
Flash Sword	Ice	Unleash a piercing blade attack to retaliate against the enemy's strike
Rejuvenate		Increases HP recovery rate for all allies. Heals own HP
Teleport		Instantly move to a nearby ally. Only for multiplayer.
Sword of Ruin	Dark	Strike with a Dark attribute blow. High special damage.
Miasma	Dark	Counter the enemy's attack with a strike of Darkness.
Swift Feet		Raise movement speed of all allies.
Corrupt Emotion	Dark	Attack surrounding enemies with a dark mist. High special damage.

Time Bomb		Set a timed explosive at the Behemoth's feet.
-----------	--	---

## Yui

Yui can be used for both attack and recovery magic.

Since Yui can make use of Fire • Ice • Thunder attribute abilities, she is flexible enough to attack a specific section that may require a certain element only in that spot.

There is no different in the attack method for short and long range attacks, but because the number of hits is higher at close range, it is said to do more damage at close range.

### Basic Tactics

The types of magic arrows fired varies based on the wand used.

If you want to clear out a lot of lesser enemies without precision aiming, use the Great Explosion skill.

Even if you are slightly off-target with your aim, you can hit the hidden cores within the blast radius of your spells. Tracking shots are slow and frequently miss.

There are multiple abilities that are wide range with a short charge time to deal with multiple lesser enemies.

The Flash Frenzy and Ice attacks can confuse and slow the Behemoths, so using high powered attacks is recommended.

Choosing your abilities based on the weaknesses of the Behemoth is a good strategy.

You will be indebted to the recovery magic in the early stages of the game, but since the amount recovered is fixed, you will need to keep using it in the later stages of the game.

## Abilities

Ability	Attribute	Total Attack Power with base Attack Power of 1000	Description
Healing Rain			Recover HP for all allies

Inferno	Fire	2900	Fires a piercing beam of fire through the enemy. Can be used fairly rapidly so this can be used for quick damage regardless of attribute defense.
Ice Explosion	Ice	4350	A wide range attack of frozen blocks. Deals general damage in addition to its attribute damage so it can be used against Behemoths regardless of attribute defense.
Piercing Thunder	Thunder	2900	Fires a piercing lightning strike through the enemy. Hits 5 times, but shots take a while to reach their target.
Silent Oath			Raises all ally special attack damage. However, allies are more likely to receive status effects. With certain exceptions there isn't too much use for this.
Crimson Tornado	Fire	2175	Blasts surrounding enemies with a tornado of fire. High special damage. There are no benefits or demerits compared to other wide range attacks so feel free to make use of this regardless of enemy attribute defense.
Ice Dagger Dance	Ice	2900	Fire 5 homing shots of ice at the enemy. The tracking technique is difficult to use, so its usefulness may vary.
Shredded Lightning	Thunder	2175	When it hits it causes a wide range blast of lightning. The wait time is short so this can be used against lesser enemies effectively.
Flash Frenzy	None	5800	Causes a large range explosion of energy. The attack range is very large. It can cause up to a 4 hit combo for massive damage, but the time it takes to pull off a large combo takes a long time and the caster will be easily struck and distracted unless the Behemoth is stopped or preoccupied.
Four Sages Embrace			Raises attribute defense for all allies and heals own HP. The elemental defense boost may save allies whom cannot be reached immediately to be healed.

# Kamo

His wide range, powerful attacks are his strength.

Even though his attack power is great and his attacks are wide range, the slow speed of the attacks should be noted. He can make short work of anything with a few hits, but the difficulty in aiming will prove to be a problem.

His attacks against the lesser enemies are powerful, but his slow speed makes him difficult to work with.

## Abilities

Ability	Attribute	Description
Roaring Flame	Fire	Strike with a blast of fire. High special damage.◦
Scorching Whirlwind	Fire	Summon a pillar of fire to scorch surrounding enemies.
Daunting Pose		Raise defense and repel incoming attacks from the Behemoth.
Flaming Spirit	Fire	Store fire power and counter the enemy's attack with it.
Flaming Embrace		Raise fire defense of all allies. Heals own HP.
Sound Gong		Attack with the power of a full body slam.
Triple Strike	Fire	Hit with 3 consecutive strikes of a flaming hammer.
Indomitable Roar		Raise maximum HP of all allies.
Roaring Flames	Fire	Fire a powerful flame shot. Damages caster as well.
Smithereens	Fire	Powerful explosion to a large area. High special damage.◦

# Ryuma

The normal attack is all long range, so Ryuma doesn't have to worry about closing in on the enemy too much. (No need to bother with your location so much)

However, the power of each individual shot is relatively low, so you have to compensate with your abilities. At close range, a MAX charged shot will do great damage.

Furthermore, the penetrating beam can do great damage to multiple targets at the same time. (Very useful for missions where you have to destroy both eye cores, etc.) Using these abilities, Ryuma can clear out waves of lesser enemies with ease.

Also, the Homing Ray ability has a wait time of only 2 so you can fire off tracking shots fairly rapidly with good damage to destroy parts of the Behemoth easily.

However, with so many attacks having the Ice attribute, Ryuma's skills will be useless against certain enemies.

## Abilities

Ability	Attribute	Description
Freeze Bomb	Ice	Set off an explosion of ice.
Shotgun		Attack with a burst of multiple shots at once.
Homing Ray		Fire a shot that homes in on the enemy.
Distract		Set a doll that will attract the attention of the Behemoth.
Freezing Embrace		Raise Ice Defense of all allies. Heal own HP.
Charge Shot		Unleash a powered up shot.
Freeze Shot	Ice	Attack with ice bullets. High special damage.
Shield of Protection		Raise physical defense for all allies.
Snipe		Fire at the Behemoth through an enlarged scope.
Cold Cloak	Ice	Store up ice power and counter the enemy attacks with it.

## Diago (Santiago)

All out offensive. His close range attacks extend into what would be long range for other characters. The description of this character says his long range attacks have a wide range, but they will be weaker. From twin attacks to 5-streak combos, with an action speed boost he will destroy parts of the Behemoths easily. Lesser enemies will prove to be a pain due to his limited ability to attack in a single line one at a time.

## Abilities

Ability	Attribute	Description
Thunder Dragon God	Thunder	A single strike with the Thunder attribute.
Double Strike	None	Two consecutive strong hits.
Triple Thunder	Thunder	Send 3 streaks of homing lightning to the enemy.
Lightning Cloak	Thunder	Store up thunder and counter enemy attacks with it.
Thunderstruck	-	Raise Thunder elemental defense for all allies. Recover own HP
Cloud Divider	None	Pierce through a group of enemies.
Thunderous Spear	Thunder	Pierce with a thunderous strike. High special damage.
Wisdom Blink	-	Raise the movement speed of all allies.
Quint Shock	Thunder	Hit with 5 consecutive thunder strikes. High special damage.
Thunder Sigil	Thunder	Set trap lightning at the feet of the Behemoth

## — Behemoths, Platforms and Best Locations from Which to Attack —

In order to attack certain parts of certain Behemoths, you may need to stand on different platforms of different height to encourage a certain type of attack in order to obtain different materials.

Examples: Fenrir's Tail attack, Ifrit's Claw Attack, etc.

For details, refer to the Material section near the end of this document in which the best strategic locations for the different Behemoth parts are listed.

Rare Material MAX	※ Raise rate of Rare Material drops	Defense- 100	Essence of Fire×6	Essence of Ice×6	Durga's Cinders×1

※ When clearing a mission with the “Dragonkin’s Sincerity”, you will receive 2 of every material you would normally obtain 1 of. This also increases the number of multiple obtained materials at once.

※ The “Rare Material” panacea increases the rate at which rare materials are dropped  
e.g. When severing Gigant’s arm, the chance to obtain “Cinders” goes down and the rate of chance to obtain “Gigant’s Right Arm” increases.

When aiming for specific materials or a wide variety of materials, this can help to more quickly obtain them.

## ——— Ability Pieces ———

There are 3 types of ability pieces: Ability Stone, Ability Shade, Ability Orb

Their value increases in the order Stone->Shade->Orb

Ability pieces may be synthesized and as you strengthen your abilities, and the number of required pieces increases as does the type change from Stone->Shade->Orb. As an end result, you will need the most of the Ability Orb type.

Name	How to obtain	Required Material	Synth Price	Total required for 1 character	Total for all 6 characters
Ability Stone	Synthesis, lesser enemies drop.	One each of Essence of Fire, Ice, Thunder and Darkness	100	30	180
Ability Shade	Synthesis, some lesser enemies and mini-bosses(※1), reward for influencing some Behemoth behavior	Ability Stone x10	1000	120	720
Ability Orb	Synthesis, some mission rewards(※2), achieving honors (titles)	Ability Shade x10	5000	400	2400

※1: Other than with Bahamut, there are parts of the A area that do not lead to a portal that contain lesser enemies that sometimes drop this.

※2: This looks to happen with the Ultimate type Behemoths. Further details unknown.

## ——— Tips and Tricks ———

- Avoid re-spawning mini-bosses

The lesser enemies and gatekeepers around the fortified pathways in certain areas do not respawn. For that reason you can defeat the lesser enemies and then attack the Behemoth in certain cases without fear of respawn. This works best on the Gigant, Ifrit and Gilgamesh types.

There are cases where the boss will not reach you well enough to allow you to sever its arm, etc. but it is close enough that you can do significant damage so they you can easily cut off the part when you close in later.

However, this trick doesn't work on the Fenrir and Shiva maps.

Also, it is possible to prevent the respawning of the lesser enemies by remaining on the inclined slopes between some platforms. The slopes bridge two areas of lesser enemies, but do not act as home to them, either. However, these lesser enemies will appear again should you move from the slope to either of the platforms.

This is effective in attacking the Behemoths without worry of attacks from the lesser enemies and you still have some room to move. For some enemies like Fenrir, they can hit you from a distance, but if the damage you receive from those attacks is less than the concentrated attacks from the lesser enemies, (which happens often) it is still more efficient to stay on the slope and continue your attack.

- Farming EXP

Two popular missions to replay to earn experience are Story Mission 5-5 in which you fight Aslan's Black Dragon, and the Neo-Bahamut mission in which you destroy the horn. One quicker method albeit at a lower EXP return (1000 EXP base; 1400 total) is mission 5-2 in which you destroy Shiva's fan. Attacking the ice on Shiva's back with piercing weapons or the area between her legs will make her drop her fan. Completion is possible within 12 seconds with Ren.

For Mission 5-5,

- The maximum (SS) Experience value is 1750
- Aslan's Dragon has no specific weaknesses or resistances and only has 2 types of attacks so it is possible to finish this without taking any damage. Lower level players can tackle this.
- The enemy is always closeby so hitting him is not a problem. You can even finish the mission in 10 or so seconds.
- Your prize will always be a single Ability Shade.

For Neo-Bahamut's Horn,

- The maximum (SS) Experience value is 1750
- If you don't use a weapon with the "None" attribute, you won't do much damage.
- Neo-Bahamut is never very far but his initial actions are random so it may take some time for him to close in on you.
- There are lesser enemies too, so a lower level character might have a hard time with this.
- You are guaranteed a horn as a reward and have a 50% chance of getting another. Each are worth 4500 gold, so on average you earn 6700 gold per attempt.

Based on your level and equipment, this can be a fast and easy way to earn gold.

- Farming Money

Since Behemoth materials (especially Gold Nuggets) are rarely used in excess, it is all right to sell any excessive surplus since most materials are easily obtainable again.

For quick cash, the "Destroy the Horn" mission for Neo-Bahamut always results in a horn that can be sold for a lot each time. It is up to you if you want to break other parts of Neo-Bahamut before destroying the horn in this case, depending on your equipment, strengths and the time you want to spend on this mission.

- Change your troop name

If you clear Mission 1-1 again and do not skip the story event afterwards, you will be given a chance to change your troop name.

- Destroying parts with overkill hits

When the overall HP of the Behemoth is very low yet certain remaining parts and cores have more HP remaining, a single strike dealing greater damage than the remaining HP of the part aimed at that specific part can destroy that at the same time as defeating the Behemoth.

e.g. Gigant has 100HP remaining but his mouth has 1000HP remaining. If you hit his mouth with a single attack doing greater than 1000 damage, you will not only defeat Gigant but destroy his mouth core as well.

Furthermore, with attacks that hit multiple areas, it is possible to destroy multiple cores with an overkill strike.

However, if the purpose of the mission is to destroy a specific part, this trick will not work and you will fail the mission
