K-ON! Ho-kago Live!! Rough Translation guide. Created and managed by KingSizzle.

This was mainly created for the RetroAchievement.org achievement set along with the launch of PSP Achievements.

Not everything is translated correctly, please let me know if there needs to be corrections via my Twitter @KingSizzle or Discord KingSizzle#1708

Welcome to the Main Menu!

Pressing Square will hide the Main Menu. **Pressing Triangle** will bring up the Item Menu.

Titles were translated by @La_Avenir from their K-On Translation FAQ. Descriptions were translated by K-on.fandom.com

Performance!

Begins the game with a selected song and the character that performs it.

Clock!

Shows the current system time of the PSP. Players are able to change the character in this section and the selected character will call out the time shown on the screen.

Sing!

The Player is able to make an own MV (motion video) with the selected options.

Communicate!

Enables the multiplayer feature.

Title!

Enables the player to return to the front screen of the game.

Settings!

Enables the player to do settings based on personal preferences.

Save!

Enables the player to save the current game.

Album!

Enables the player to see the items which are unlocked or still to be unlocked. There are 5 different options inside: Collection, Event, Graphic, Sound, and Voice.

Dress!

Enables the player to play as Sawako Yamanaka who will be able to change the clothes of the selected character.
